

EMMANUEL KIPNGETICH KETER

SUMMARY

Software development and AI-focused informatics professional with hands-on experience across cloud operations and networking. Developed AI-powered solutions and scalable enterprise systems with Angular, Django, Python, JavaScript, Neon, and Supabase. Award-winning co-developer of FarmIQ, recognized as AI4Startups Agritech Hackathon winner. Delivered results through collaborative, leadership-driven internship and project experience.

EXPERIENCE

Cloud Operations Engineer Intern, 02/2026 - 05/2026

Safaricom PLC - Nairobi, Kenya

- Managed cloud service deployments and configurations for various applications.
- Monitored system performance and identified potential issues proactively.
- Assisted in troubleshooting and resolving cloud infrastructure incidents.
- Collaborated with teams to ensure seamless integration of cloud solutions.
- Documented procedures and best practices for cloud operations processes.
- Participated in training sessions on new cloud technologies and tools.
- Investigated root causes of incidents reported by customers or users.
- Researched emerging technologies related to cloud operations.
- Maintained an inventory of all assets hosted in the cloud environment.
- Deployed new cloud-hosted environments in accordance with best practices and security standards.
- Selected appropriate AWS service based on compute, data or security requirements.
- Collaborated with architects and engineers to design networks, systems and storage environments that reflected business needs, security specifications, and service level requirements.

Software Developer Intern, 09/2025 - 01/2026

Quikk API - Nairobi, Kenya

- Collaborated with team members to troubleshoot software issues and improve performance.
- Participated in code reviews to ensure adherence to coding standards and best practices.
- Tested software applications to identify bugs and ensure quality assurance standards.
- Engaged in daily stand-up meetings to discuss progress and coordinate tasks with the team.
- Attended weekly knowledge sharing sessions with senior engineers to learn best practices in coding techniques.
- Informed project manager of milestone updates and provided detailed project reports.
- Built visually rich front-end components.

System Engineer Intern, 01/2025 - 06/2025

Tritel Technologies Limited - Nairobi, Kenya

- Supported engineers in designing and testing system components.
- Worked with team members to identify and fix software issues.
- Recorded technical procedures and system settings for future use.
- Joined team meetings to review project progress and challenges.
- Supported system installation and configuration tasks as directed by supervisors.
- Conducted research on emerging technologies relevant to engineering projects.

SKILLS

- Meeting Coordination
- Clerical Support
- Research
- Mail distribution
- Project Support
- Analytics
- Recordkeeping
- Report Writing
- Teamwork and Collaboration
- Complex Problem-Solving
- Computer Skills
- Print Production
- Operations Support
- Team Collaboration
- Interpersonal and Social Skills
- Data Interpretation
- Project Management
- Tech-Savvy
- Database Management
- Quick Learner
- Creativity and Innovation
- Fast Learner
- Outstanding communication skills
- Research and analysis
- Attention to Detail
- Data Management
- Creative and Resourceful
- Telephone Etiquette
- HTML proficiency
- CSS expertise
- HTML expertise
- NoSQL Databases
- Application Development
- JavaScript experience
- Responsive Web Design
- Version control
- Performance Optimization
- Fluent in C, C++, C#
- Database Management Software
- Software Development Life Cycle (SDLC)
- Design and development
- Efficient data management
- Microsoft ASP.NET
- UI/UX

- Enhanced team communication through sharing insights and suggestions regularly.
- Installed new hardware components such as servers, PCs, printers.
- Performed software upgrades on existing systems to improve stability and reliability.
- Resolved hardware and software issues with end-users in a timely manner.
- Installed, configured and tested operating systems and application software.

IT Project Manager Intern, 01/2024 - 04/2024

Social Economic Empowerment Women Organization - Nairobi, Kenya

- Prepared reports summarizing project progress and results for management review.
- Maintained accurate records of all activities performed throughout internship period.
- Assisted with event planning, support and execution of virtual and in-person engagements.
- Helped maintain the Table Banking System app and develop the Front Office Application known as (FOSA)
- Created excel spreadsheets to be used in the credits and accounts office
- Arranged files and documents
- Assisted in developing the company's website
- Identified areas for improvement, narrowing focus for decision-makers in making necessary changes.

EDUCATION AND TRAINING

Bachelor of Science, Informatics And Computer Science, Expected in 08/2027
Strathmore University - Nairobi

NCUK International Foundation Year, Engineering, 06/2022
Brookhouse School - Nairobi, Kenya

High School Diploma, KCSE, 01/2020
Light Academy - Nairobi, Kenya

Primary School Diploma, KCPE, 01/2016
Kilimani Juniour School - Nairobi, Kenya

LANGUAGES

English: First Language

Kiswahili: C1

Japanese: B1

Turkish: B1

CERTIFICATIONS & LICENSES

- Module 3 (2023): Informed Consent - TRREE (Training and Resources in Research Ethics Evaluation). Issued: 2025.
- CCNA: Introduction to Networks - Cisco Networking Academy. Issued: 2025.
- CCNA: Switching, Routing, and Wireless Essentials - Cisco Networking Academy. Issued: 2025.
- 3D Printing Beginner Course Certification - 3D East Africa. Issued: 2025.

AWARDS & HONORS

- Best AI Model Award (£2,500 Prize Winner)
AI4Startups Agritech Hackathon, Impact Hub Nairobi | October 2025

Awarded Best AI Model among participating teams for developing FarmIQ, an AI-powered agricultural credit scoring and farm management platform. Co-developed a solution that leveraged machine learning, Supabase, Streamlit, and USSD technology to improve financial inclusion for smallholder farmers.
Contributed to the design of the AI credit scoring and loan simulation system, enabling data-driven lending decisions.

HIGHLIGHTS

School Captain — 4 Years, Strathmore School
First School President - Milimani Kitengela Junior Academy

PROFILE

Operations and finance professional directing daily operations, financial management and statutory compliance at Blooms Junior School, where streamlined administration and long-range financial planning supported the growth of the teaching staff. Holds a Bachelor of Business Science in Financial Engineering from Strathmore University and a DELF A2 French diploma, with deep strengths in financial modeling, reporting, fee reconciliation and data-driven decision-making. Experience spans school administration, corporate finance and international community service.

PROFESSIONAL QUALIFICATIONS & CERTIFICATIONS

Bachelor of Business Science in Financial Engineering

Strathmore University · Nairobi | 2021 – 2025

Quantitative training across financial modeling, derivatives, time series analysis, stochastic modelling, risk management and applied analytics.

DELF A2 — Diplôme d'études en Langue Française

Official French Language Certification

Certified French proficiency across listening, reading, writing and speaking — applied daily by teaching French learners.

CORE COMPETENCIES

- Financial Modeling & Valuation
- Budgeting & Financial Forecasting
- Fee Reconciliation & Controls
- Financial Risk Management
- Financial Reporting & Analysis
- Statutory Compliance — PAYE & NSSF
- Data Analysis & Machine Learning
- Cross-Functional Team Leadership

WORK EXPERIENCE

Operations & Finance Assistant Director

Jan 2025 – Present

Blooms Junior School Limited — Kitengela, Nairobi

- Direct daily operations and financial management for a private junior school, ensuring seamless administrative and educational processes across the institution.
- Manage comprehensive financial operations — financial reporting, receipting and fee book reconciliation — safeguarding accuracy and transparency in school accounts.
- Partner with fellow directors in strategic board meetings to develop long-term financial strategies aligned with the school's growth objectives.
- Streamlined administrative processes and supported institutional expansion, directly contributing to the growth of the teaching staff from 10 to 20 employees.
- Ensure full statutory compliance by accurately preparing and filing employee taxes (PAYE) and NSSF contributions.
- Orchestrate school extracurricular activities and teach French to Grade 4–9 learners, enhancing student engagement and applying certified language proficiency.

PROFESSIONAL EXPERIENCE

Finance Intern (Course Placement)

1st February 2024 – 29th March 2024

Mwalimu Sacco — Nairobi

- Executed financial forecasting and reporting tasks, leveraging academic knowledge of financial modeling to support data-driven decision-making.
- Assisted in the preparation and analysis of financial statements, ensuring accuracy and adherence to reporting standards within a fast-paced cooperative environment.

Former Founding Finance Assistant Lead

Formula Student

Strathmore Racing Team — Strathmore University, Nairobi

- Spearheaded financial operations for the first Formula Student racing team in East Africa, establishing foundational budgeting and financial-tracking processes from the ground up.
- Collaborated with cross-functional engineering and business teams to ensure financial alignment for project development and competition readiness.

KEY ACADEMIC PROJECT

Predictive Crop Recommendation Model using Machine Learning

Final Year Thesis

- Designed and developed a machine learning model that delivers data-driven crop recommendations, showcasing advanced analytics and data analysis capabilities.
- Integrated statistical inference and data modeling to turn complex agricultural datasets into actionable, predictive insights.

EDUCATION

Bachelor of Business Science in Financial Engineering

Strathmore University, Nairobi

2021 – 2025

Coursework spanning derivatives, financial risk management, time series analysis and business strategy.

Kenya Certificate of Secondary Education — B+

Strathmore School, Nairobi

2017 – 2021

Balanced academics with competitive rugby, football, choir and Senior student leadership.

Kenya Certificate of Primary Education — 399/500

Milimani Kitengela Junior Academy, Kitengela

Balanced academics with Senior Student Leadership becoming the First School President.

2013 – 2016

LEADERSHIP & COMMUNITY

Community Service Volunteer

3rd February 2023 – 24th February 2023

Missioni Consolata Seminario Teologico Internazionale IMC — Bravetta, Rome, Italy

- Dedicated one month to international volunteer service abroad, demonstrating adaptability, cross-cultural communication and commitment to community development.
- Collaborated with diverse teams to support daily operations and community outreach initiatives at the institute.

- Elected in the school council and Advanced from Vice Captain to Captain at Strathmore School, leading peers for each of the 4 consecutive years at Strathmore School
- Participated in student initiatives and outreach to children's homes, including Machakos School for the Deaf

ADDITIONAL INFORMATION

Technical Toolkit: Microsoft Excel · Microsoft Word · Microsoft PowerPoint · R · Stata · AI & Data Tools · Stochastic Modelling · Financial Modelling · Communication Skills · Data Entry · Statistics

Interests: Competitive Rugby · Choral Singing · Photography · Culinary Arts

PERSONAL STATEMENT:

I am a recent Informatics and Computer Science graduate with hands-on experience in IT support, basic networking, and systems operations. I have foundational knowledge in cybersecurity, supported by the (ISC)² Certified in Cybersecurity (CC) credential. I am enthusiastic about contributing to a professional IT team, learning on the job, and developing my expertise across multiple areas of IT. I am committed to problem-solving, teamwork, and effective communication, and I approach challenges with a proactive and adaptable mindset.

EDUCATION:

Strathmore University (2022 –2026)

Bachelor of Informatics and Computer Science

Cisco Cyberops Associate (2026)

CCNA: Introduction to Networks (2023)

ISC2 Certified in Cybersecurity (CC) (2026 – 2029)

Pioneer School (2018 – 2021)

Kenya Certificate of Secondary Education

Gilgil Hills Academy (2013 – 2017)

Kenya Certificate of Primary Education

WORK EXPERIENCE:

IT Support Intern - CIC Insurance Group, Head Office (January 2026 – April 2026)

During my internship, I delivered day-to-day IT support to staff by diagnosing and resolving hardware, software and basic network issues. I installed and configured Windows operating

systems and business applications, assisted with user account tasks such as password resets and access support, and set up laptops and system access for new employees. I troubleshoot common connectivity problems involving Wi-Fi, printers and VPN, logged and tracked incidents through the IT service desk ticketing system.

IT Support Intern - Milimani Commercial Courts (January 2025 – April 2025)

Gained hands-on experience in IT support by troubleshooting hardware and software issues, assisting users with technical challenges, and supporting daily IT operations in a professional work environment.

Technical Skills:

IT Support: Software installation and configuration, end-user support, hardware and software troubleshooting, system updates and maintenance.

Operating Systems: Windows 10/11 administration and Ubuntu Linux installation, updates and basic troubleshooting.

Networking Fundamentals: TCP/IP, DNS and DHCP concepts, device connectivity, basic network and Wi-Fi setup and troubleshooting.

Tools & Technologies: Microsoft Office Suite, Visual Studio Code, NetBeans, IntelliJ IDEA and Postman (API testing).

Database Fundamentals: Basic querying and database usage using MySQL and MariaDB.

Professional Skills: Team collaboration, problem-solving, adaptability and effective communication.

PROFESSIONAL SUMMARY

Versatile Software Engineer and IT Professional with comprehensive expertise in full-stack web development, AI/ML engineering, relational database architecture, and cybersecurity infrastructure. Proven track record of delivering end-to-end applications—from neuro-symbolic AI health tech and custom database engines to secure e-commerce platforms and scalable IT solutions. Adept at cross-functional leadership, UI/UX design, and aligning technical execution with business strategy.

CORE SKILLS

- **Programming Languages:** Python, PHP, JavaScript, SQL, MySQL, PostgreSQL, HTML5/CSS3.
- **Frameworks & Libraries:** Next.js, React.js, Laravel, Django, Flask, Flutter, Tailwind.
- **AI, ML & Data:** RAG Architectures, LLMs (BioMistral v2), Agentic AI, NLP, OCR Integration, Data Analytics.
- **Security & Infrastructure:** CCNA, Ethical Hacking, Cryptography, Metasploit, Secure Coding, Linux.
- **Design & Architecture:** UI/UX Design, REST API Integration, Database Optimization, Enterprise Architecture.

PROFESSIONAL EXPERIENCE

Co-Founder & Technical Lead

FarmIQ | Nairobi, Kenya | Aug 2026 - Present

- Drafted functional specifications, system architecture requirements, and founder agreements for an agritech application.
- Designed operational workflows for farm logistics management utilizing QR code scanning technology.

ICT (Industrial Attachment)

Kenya Tea Development Agency (KTDA) | Jan 14, 2026 - Mar 11, 2026

- Supported cross-functional IT operations by assisting with cybersecurity monitoring, software development tasks, and data analytics to optimize organizational systems.

Freelance UI/UX Designer

Eldorado | 2025

- Designed user interfaces and mapped user journeys for a gaming website, focusing on intuitive navigation and highly engaging player experiences.

Freelance Software/Web Developer

Sarcom Center (SarcomLTD) | Aug 2024 - Sep 2024

- Designed and deployed a responsive business web application using HTML, CSS, and PHP, improving load performance by 25%.
- Gathered client requirements, tested features, and ensured stable deployment for commercial branding.

IT Support Assistant (Volunteer)

Kenya National Library Service (KNLS) | Jan 2024 - Mar 2024

- Spearheaded the implementation of a new bookkeeping system, leading a team to transition from manual to digital records.

KEY PROJECTS

SafeMedsAI — Neuro-Symbolic AI HealthTech App

- Developed an AI-powered medication safety platform combining OCR (to digitize medical labels) with a medical database to detect drug interactions.
- Implemented Retrieval-Augmented Generation (RAG) using BioMistral v2 to generate context-aware safety explanations (achieved 70% 'A' grade).

Mirieri DB (MDB) — Custom Relational Database Engine

- Engineered a lightweight relational database system in Python from scratch, featuring a custom SQL query parser and persistent storage logic.
- Optimized data retrieval efficiency to an $O(1)$ lookup time by implementing hash-map indexing for primary keys.

AI Chatbots & Virtual Assistants

- **Next.js Agentic AI Chatbot:** Architected a modern AI-driven conversational agent integrating multi-agent LLM workflows.
- **Python NLP Virtual Assistant:** Engineered a secure conversational agent incorporating NLP and strict input validation to mitigate injection vulnerabilities.

E-Commerce & Live Auction Platforms (BidUnity)

- Architected fully functional Laravel-based platforms featuring secure user authentication, product listings, and real-time live bidding logic.
- Optimized backend transaction workflows for highly concurrent bidding environments.

Pesapal API & Payment Gateway Integration

- Successfully integrated third-party payment gateway APIs (Pesapal JDEV26 Challenge), handling complex financial transaction workflows and data synchronization.

Property Management Architectures (Kejalink & Rental-Pro)

- Designed complex multi-entity relational database schemas linking user profiles, lease agreements, and financial transaction histories.

Cryptographic Password Manager

- Engineered a secure Password Manager applying rigorous cryptographic principles for safe credential storage and access control.

Beyond Phrases — Android Mobile Application

- Co-developed an Android mobile application designed for contextual phrase-based language learning.

EDUCATION

Strathmore University

Nairobi, Kenya | 2022 - 2026

Bachelor of Informatics and Computer Science — **Second Class Honours (Upper Division)**

Nairobi National High School

Nairobi, Kenya | 2018 - 2021

Kenya Certificate of Secondary Education (KCSE) — Grade: B+

CERTIFICATIONS

- IBM Data Science Badge
- Google AI Essentials
- Google Professional Data Analytics Certificate
- Google Professional Cybersecurity Certificate
- Cisco Certified Network Associate (CCNA) — Cisco
- Metasploit for Beginners: Ethical Penetration Testing

CAREER OBJECTIVE

Driven Computer Science student looking for a job opportunity to apply advanced programming abilities and technical expertise, with an emphasis on providing significant solutions and contributing to cutting-edge technology projects.

EDUCATIONAL BACKGROUND

- 2022 - Present - Strathmore University - Bachelor of Science in Informatics and Computer Science.
- 2018-2022: Alliance Girls' High School.
- 2010 -2017: Loreto Convent Valley Road.

ACTIVITIES AND VOLUNTEER WORK.

- Team Leader and Organizing Committee Vice President of AIESEC in Strathmore (August 2024 - December 2024)

Embarked on a role to lead the University and Alumni Relations Portfolio, as well as organize a conference in Embu that greatly impacted the delegates in attendance.

- Community Service at AAR Hospital, Kiambu Road (February 2024 - March 2024)

Oversaw front desk operations, registering patients, and guiding them through their care process. Provided empathetic assistance to patients in pain, offering wheelchair support and ensuring a seamless, compassionate experience in a high-pressure environment.

EXPERIENCE

- Attachment at AAR Hospital, IT Department (January 2024 – February 2024): Assisted in IT support operations, including troubleshooting hardware issues, conducting system restarts, and managing password resets. Actively provided help desk support by fielding technical queries and ensuring smooth IT operations in a fast-paced healthcare environment.
- Attachment at Safaricom PLC, Android Development Team (January 2025 – April 2025): Contributed to the development and optimization of Safaricom's Android applications by assisting in feature implementation, debugging, and performance testing. Collaborated with senior developers to apply clean architecture principles, conduct code reviews, and write unit/UI tests. Participated in agile sprints, daily stand-ups, and maintained technical documentation to support team workflows and deliver high-quality mobile solutions.

TECHNICAL SKILLS.

- Java Programming
- Prompt Engineering
- Artificial Intelligence
- Data Visualization and analytics
- iOS App Development

SOFT SKILLS.

- Team collaboration.
- Communication.
- Proficiency in MS Word, Excel, and PowerPoint.
- Computing Research.

CERTIFICATIONS.

- IBM Artificial Intelligence
- Zindua Data Visualization
- Cisco IT essentials

. Apple App Development in Swift

INTERESTS.

- Car Enthusiast.
- Avid Reader
- Adventure Seeker
